

Product Documentation: ZAIZEN

Financial Intelligence

ZAIZEN is a premium, all-in-one Enterprise Resource Planning (ERP) and Accounting solution tailored for the **SYSCOHADA** (OHADA) accounting standards, specifically optimized for the Central African region (Cameroon, etc.).

■ Key Modules

1. Core Accounting (SYSCOHADA)

- **Multi-Company Support:** Manage multiple legal entities within a single workspace.
- **Smart Journal Entries:** Double-entry bookkeeping with automatic balance checks.
- **Trial Balance & Ledger:** Real-time generation of ledger balances.
- **Fiscal Year Management:** Automatic year-end closing and opening procedures.

2. Advanced Reporting

- **Income Statement:** Detailed Revenue vs. Expense tracking with net income forecasting.
- **Balance Sheet:** Side-by-side Asset/Liability tracking.
- **Cash Flow Statements:** Monitor liquidity through operational and financial activities.
- **Tax Compliance (ECF):** Generate OHADA-compliant ECF forms and FEC files for tax audits.

3. ERP & Commercial

- **Product Management:** Inventory tracking with family categorization.
- **Customer & Supplier Portals:** Secure links for clients and vendors to track invoices and payments.
- **Warehouse Management:** Multi-location stock tracking with movement history.
- **Procurement:** Streamlined purchase request and approval workflows.

4. HR & Payroll (Cameroon Specialized)

- **Employee Database:** Track contracts, positions, and performance.
- **Automated Payroll:** One-click generation of payroll periods.
- **Tax Engine:** Automatic calculation of CNPS, IRPP, and other regional salary taxes.
- **Thirteenth Month & Bonuses:** Support for seniority bonuses and annual payouts.

5. CRM & Project Profitability

- **Sales Pipeline:** Track leads through customizable stages (Probability-based).
 - **Project ROI:** Assign expenses to specific projects to track real-time profitability and margins.
-

■ User Experience (UX) Goals

- **Glassmorphism Design:** High-end, transparent UI elements for a modern "Apple-like" feel.
 - **Dynamic Visuals:** Real-time charts, progress bars, and status indicators.
 - **Mobile-First Response:** Fully responsive dashboard for on-the-go management.
 - **Interactive Modals:** Guided forms for complex data entry (Add Product, New Lead, etc.).
-

■■ Trust & Compliance

- **Immutable Audit Trail:** Every financial action is logged and can never be deleted.
- **Permission-Based Access:** Granular control over who can see, edit, or export sensitive data.
- **SYSCOHADA Optimized:** Built-in validation for OHADA account codes and reporting formats.
